External Risk Factors

1. Market Risk (Product Demand)

The Company also loans against marketable securities, commercial real estate and corporate loans. The overall demand for the Company's products is linked to macro-economic parameters like GDP growth, stock market activity levels and overall demand for credit. Any adverse movement in these factors will have an adverse impact on the business of the Company. The performance may also be affected by political / economic developments and natural disasters like earthquake, flood, drought, etc. These factors may affect the finance industry as well as the recovery of dues from the customers.

2. Market Risk (Competition)

The Company operates in a highly competitive environment resulting in a pressure on the spreads earned by the Company.

3. The impact of the COVID-19 pandemic.

COVID-19 has taken its toll on not just human life, but business and financial markets too, the extent of which continues to be unascertainable. In March, 2020, post declaration of Covid-19 outbreak as a global pandemic by the World Health Organization, Indian Government announced strict lockdown to contain the spread of virus. Starting June, 2020 various State Governments started process of unlocking in calibrated manner depending on the situation prevailing in their respective jurisdictions.

While there is some improvement in the economic activity, the continued partial lockdown has impacted lending business fee income generation and collection efficiency which in turn may impact customer defaults and consequently impairment allowance. There is still uncertainty regarding the time required for life and business to get back to normal. The extent to which COVID-19 pandemic will impact Company's operations and financial results is dependent on future developments, which are highly uncertain, including among many other things, the severity of the pandemic and any action to contain its spread or mitigate its impact. The Company continues to meet its operating and financial obligations, maintain the required capital adequacy ratio and has adequate financial resources to run its business.

In accordance with the RBI guidelines relating to COVID-19 Regulatory Package dated March 27, 2020 and April 17, 2020, the Company granted moratorium on the payment of installments and/or interest, as applicable, falling due between March 01, 2020 and May 31, 2020 to eligible borrowers classified as Standard as on February 29, 2020. In accordance with the additional Regulatory Package guidelines dated May 23, 2020, the Company granted a second moratorium on installments or interest, as applicable, due between June 01, 2020 and August 31, 2020. In respect of accounts where moratorium benefit has been granted, days past due (DPD) status of those accounts is at standstill as on 29 February 2020 or 31 May 2020 as the case may be. The granting of moratorium does not result in accounts becoming past due and automatically triggering forward movement to Stage 2 or Stage 3. However based on qualitative factors wherever the Company has assessed that there may have been significant increase in credit Risk, such accounts have been classified as Stage 2 and accordingly impairment allowance for lifetime expected loss is provided.

The Company has assessed the recoverability and carrying value of its assets comprising Loans and advances, Property, Plant and Equipment, Intangible assets and Investments as at reporting date, and has concluded that there are no material adjustments required in the special purpose financial results, other than those already considered. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Company continues to monitor any material changes to future economic conditions.

4. Credit Risk

Being a financial intermediary, the Company faces credit risk of default by the customers.

5. Interest rate / Liquidity Risk

The economic value of the Company's assets and liabilities are affected by variations in market interest rate. Further, the liquidity risk is the potential inability of the Company to meet its liabilities as they become due.

6. Legal and Statutory Risk

The Company is regulated by RBI and is required to comply with statutory enactment's including the Companies Act, The RBI Act, 1934 and the regulations, guidelines and prudential norms issued by RBI thereunder, SEBI guidelines, as applicable, and other applicable laws and regulations.
